

SIZE GUIDE

Rings

1. THE RIGHT SIZE FOR YOUR FINGER

It is preferable to take the measure of the finger at the end of the day. Better not to measure the finger when it is too hot or cold.

Do not forget that your hands are not perfectly identical; a ring that is usually worn on a finger of your left hand might not properly fit with the same finger of your right hand.

You must ensure that the chosen size slides easily along the whole length of your finger. To measure your finger, you can use a tape measure. Measure the finger circumference in millimeters. This measure corresponds to the ring, listed below.

2a. HOW TO USE THE BLISS CHART SIZE CHART

If you have a ring that perfectly fits the finger on which the Bliss creation will be worn, you can place it over the nearest sized circle of the Ring Size Chart. Before printing, Bliss suggests to select the "Actual Size" printing option from the printer settings and not only the option "Fit to page".

If your ring appears to be between two sizes, Bliss recommends that the larger size be chosen.

WRONG ALIGNMENT

The inner edge of the ring is not aligned with the outer edge of the circle, or the inner edge of the ring is not aligned with the outer edge of the circle

CORRECT ALIGNMENT

The inner edge of the ring is aligned with the outer edge of the circle

21,34 mm	21,66 mm	21,97 mm	22,29 mm	22,61 mm	

3. THE DECISION ABOUT THE SIZE

If you hesitate between two sizes, it is better to choose the larger. Keep in mind that the choice of size is influenced by the style of the ring: a large model will be worn again and not tightened compared to a smaller one.
